The student enrolling for the first grade should have preliminary knowledge of their instrument of choice and score reading. For this reason, there are preparatory modules to introduce the student in score reading

Each grade has a corresponding level of the Associated Board of the Royal Schools of Music (ABRSM).

Each grade contains a specific number of modules. The grades have been divided in to modules to enable continuous assessment of the students and progress management.

A module is a set number of lessons that must be covered before a continuous assessment is done.

Each module therefore has between 12- 18 lessons, depending on the grade.

It should be noted that students study a minimum of seven pieces within each module and each piece of music covers particular details in technical development.

We highly recommend students to sit for ABRSM exams, commensurate with their grade level.
